

Spacy::VectorBase

Spacy::AddArithmeticOperators< Vector >

Spacy::FEniCS::Vector

```
graph BT; FEniCS[Spacy::FEniCS::Vector] --> VectorBase[Spacy::VectorBase]; FEniCS --> AddArithmetic[Spacy::AddArithmeticOperators< Vector >];
```

The diagram illustrates the relationship between three C++ classes. At the bottom is a gray box labeled 'Spacy::FEniCS::Vector'. Two blue arrows point upwards from this box: one to a white box labeled 'Spacy::VectorBase' on the left, and another to a white box labeled 'Spacy::AddArithmeticOperators< Vector >' on the right. This indicates that 'Spacy::FEniCS::Vector' inherits from both 'Spacy::VectorBase' and 'Spacy::AddArithmeticOperators< Vector >'.
